

ARC - CURVED BIO FIREPLACE FOR TABLE OR FLOOR

BIO-80-050

The Arc is a versatile and elegant curved bio fireplace designed for both floor and tabletop use. Ideal for indoor and outdoor settings, it creates a cosy ambience with its natural flame. Without wind protection glass, the Arc performs best in calm, wind-free conditions outdoors, maximizing burn time. When used outdoors, it's advisable to bring the fireplace inside or shield it after use to ensure its longevity and protect it from the elements.
