

FOCO ONE 800

BIO-30-128

Foco One 800 is an elegant, single-sided bioethanol fireplace designed for in-wall installation where the flames can only be seen from the front. This fireplace offers a stylish solution for creating a cosy atmosphere. Customise the fireplace to suit your needs and choose between a manual or automatic burner. Tempered glass is included to protect the flame and ensure a stable flame experience. If the fireplace is built into a combustible wall, you should insulate between the fireplace and the wall.
