

BIOETHANOL FIRE GRATE XL - 80 CM

BIO-20-319

Freestanding bioethanol fireplace grate with burner and decorative logs designed to be placed in traditional open fireplaces. This model measures 80 cm in width and includes a 3.5-liter burner, providing up to 7 hours of burn time. It transforms your old fireplace into a modern bio fireplace without needing a chimney. The heat effect is up to 3.3 kW which is usually enough to heat up a room up to around 47 square meters. Easy to install and use, it retains the cosy ambience of a traditional fire while offering an eco-friendly heating solution.
