

DENVER F6 CORNER - BESPOKE MEASUREMENTS

BIO-50-685

DecoFlame Denver F6 Corner is a custom-made bioethanol burner designed to create stunning flames on two sides of a corner. Featuring the latest biofireplace technology, it offers six adjustable flame levels, remote control, and app control for convenient operation. Crafted to your specifications in size and colour, this burner includes an automatic refilling system and does not require a chimney. Perfect for adding a modern, luxurious touch to any space, the Denver F6 Corner enhances ambience with its clean, eco-friendly flames.
