

BERGER - CAST IRON BIOETHANOL FIREPLACE

BIO-20-902

Berger is a freestanding bioethanol fireplace made of cast iron from ScandiFlames, inspired by traditional Scandinavian wood stoves with beautiful iron accents. The included burner has a capacity of 1.5 litres and can burn for approximately 5 hours per filling, featuring adjustable flames that produce up to 2.1 kW of heat. The decorative top with a handle can be removed for a more minimalist look, and a small cooking plate becomes available, allowing you to heat a kettle for tea or similar, adding extra functionality. The bio fireplace requires no chimney and no electrical connection, making installation simple and flexible.

TECHNICAL SPECIFICATIONS

Burner

Remote control	No
Recommended air change rate	1
Burner type	1.5 Litros Premium
Flame length	15 cm
Minimum room size	40 m³
Requires electricity	No
Burn time	5 hours
