

## BERGER - CAST IRON BIOETHANOL FIREPLACE

BIO-20-902

Berger is a freestanding bioethanol fireplace made of cast iron from ScandiFlames, inspired by traditional Scandinavian wood stoves with beautiful iron accents. The included burner has a capacity of 1.5 litres and can burn for approximately 5 hours per filling, featuring adjustable flames that produce up to 2.1 kW of heat. The decorative top with a handle can be removed for a more minimalist look, and a small cooking plate becomes available, allowing you to heat a kettle for tea or similar, adding extra functionality. The bio fireplace requires no chimney and no electrical connection, making installation simple and flexible.

### TECHNICAL SPECIFICATIONS

#### Burner

Control	Manual
Usage	0.3 L/h
Heat output (max)	2,1 kW
Capacity	1.5 Litres
Fuel	Bioethanol
Flue/chimney	Not Required
