

HONOLULU - WHITE FREESTANDING BIOETHANOL STOVE

BIO-20-326

Honolulu is a compact, freestanding bioethanol fireplace designed to resemble a classic wood-burning stove by ScandiFlames. Crafted from powder-coated steel with a sleek white finish, its small size makes it an ideal fit for traditional fireplace hearths and surrounds where the flue has been closed off. The fireplace features a 1.0-litre burner, providing up to 5 hours of burn time per filling, and a maximum heat output of approximately 1.6 kW. This output is typically sufficient to create a comfortable temperature in rooms measuring 15-20 square meters.

TECHNICAL SPECIFICATIONS

Type

Use	Indoor
Brand	ScandiFlames
Producttype	Bioethanol Stove
Warranty	2 years

Burner

Capacity	1 Litres
Fuel	Bioethanol
Flue/chimney	Not Required
Type of burner	Manual Burner
