

AUSTIN - WHITE FREESTANDING BIOETHANOL STOVE

BIO-20-324

Austin is a small freestanding bioethanol fireplace in a classic wood-burning stove design from the brand ScandiFlames. The fireplace is made from powder-coated steel and has a white finish. The small size makes it a perfect fit for old traditional fireplace hearths and surrounds where the flue has been closed off. The fireplace features a 1.0-litre burner with up to 5 hours of burn time per filling and a maximum heat output of about 1.6 kW - usually enough to create a comfortable temperature in a room of 15-20 sqm.

TECHNICAL SPECIFICATIONS

Burner

Heat output (max)	1,6 kW
Capacity	1 Litres
Flue/chimney	Not Required
